

RIYA GOYAL

Address: House no.68, Block no.8, Sarai Mohalla,
Near Girls School, Punhana, Mewat, Haryana-122508

Phone no: +91 9034285780

Email id: riya.goyal2599@gmail.com

<https://www.linkedin.com/in/riya-goyal-299642194/>

<https://github.com/riya2599>

Career Objective: To get an opportunity where I can make the best of my potential and contribute to the organization's growth.

Academic Background

Course	School/Branch	University/Board	Year Passed	% or CGPA
M.Tech	CSE- AI	Indira Gandhi Delhi Technical University for Women	2023	81.41%
B.Tech	CSE	Bhagwan Parshuram Institute of Technology, GGSIPU	2021	90.70%
12 th Class	S.D.V.N. Sr. Sec. School	CBSE	2016	87.80%
10 th Class	S.D.V.N. Sr. Sec. School	CBSE	2014	10

Internships:

- **Research Internship, IGDTUW** (June 2022- July 2022)
Project- Depression detection Model using Word and Sentence Embedding with different classifier.
- **Artificial Intelligence Intern, Personify** (Feb 2022 – May 2022)
Projects: Recognition of objects with Convolution Neural Network,
Hand Written Digit Classification using CNN
News Classification using NLP.

Technical competencies:

- Programming Language:- C,C++, Core Java, Python
- RDBMS :-Oracle, SQL
- Technical Skills:- Operating system, Compilers, Theory of Computation, DBMS
- Web Technologies:- HTML, CSS
- Operating System :- Windows
- Technology/Platforms: Netbeans, VS Code

Personal competencies:

- Good team player and positive attitude.
- Problem Solving.
- Time management.

Academic projects:

Project:-1

Title:- Online Examination System

Detail: The project was successfully designed and tested for accuracy and quality. The project will be used for attempting a test that is given by the teacher. The result will be displayed instantly after the test submission. Self-submission of the test if the time limit is exceeded.

Technologies:- HTML, CSS, Javascript

Project:-2

Title:- Student Management System

Detail: It is an application, in which you can do basic student record tasks like adding the student info, view the added student, searching the students and their respective courses, etc.

Technologies:- Python, Xampp Server

Project:-3

Title:- Fashion MNIST Data Classification

Detail: The objective is to identify (predict) different fashion products from the given images using a Convolutional neural network.

Technologies:- Convolutional Neural Network

Project:-4

Title:- Heart Disease Prediction

Detail: Building a heart disease prediction using Machine Learning with Python using Logistic Regression and SVM.

Technologies:- Machine Learning

Project:-5

Title:- Depression detection Model using Word and Sentence Embedding with different classifier

Detail: Finding the best performance of word and sentence embedding using different classifiers.

Technologies:- Machine Learning and NLP

Project:-6

Title:- Malware Classification Using Deep Learning Approaches

Detail: In this project, we proposed a modified DL architecture for image-based malware classification, and compare the results of the proposed scheme with the state-of-the-art results.

Technologies:- Deep Learning

Achievements:

- Qualified GATE exam of 2021.
- Qualified UGC NET-JRF Dec 2023
- Certified in Core Java from Internshala.
- Participation certificate of NCAT.
- Participation certificate of Eloquence'18.
- Participation certificate of Eloquence'19.

- Certificate of Annual Sports Day as Coordinator.
- Certified in Python from Udemy.
